

ME, MYSELF AND I

JIDAP 2021

PREVIOUSLY...

- + Master 2 internship from january to july 2007
 - > Graphical document indexing using structural signature
- + Phd student from 2007 to 2011
 - > 48 months Phd duration (not good ;-)
 - > Complex analysis of historical documents, application to lettrines
- + Mix of image processing, pattern recognition and ontology

- Letter
- Pattern
- Background
- Frame

**Complex
images**

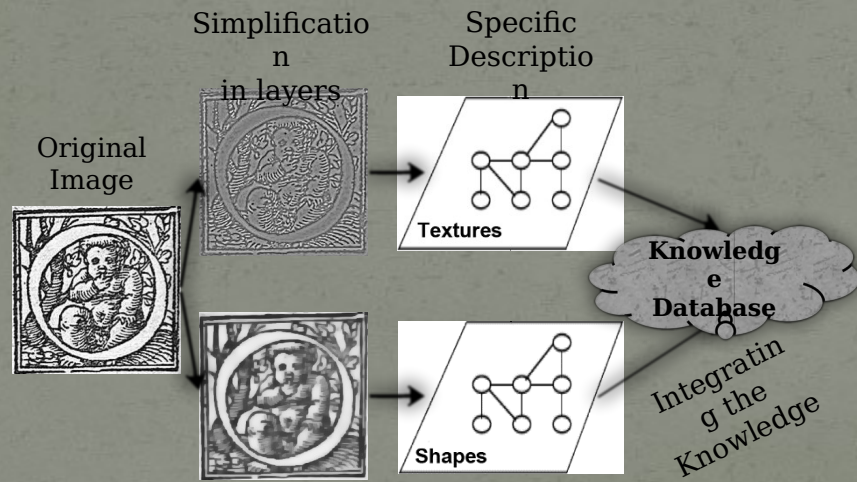

Semantic Gap

Phd in 1 slide...

QbE / CBIR

Keywords from experts

PREVIOUSLY... BUT A BIT LATER

1st participation to JIDAP (birth)

2nd participation
What is thesis

3rd participation
Why making a thesis ?

Mots-clés

Senseo
Vittel
Black-Berry

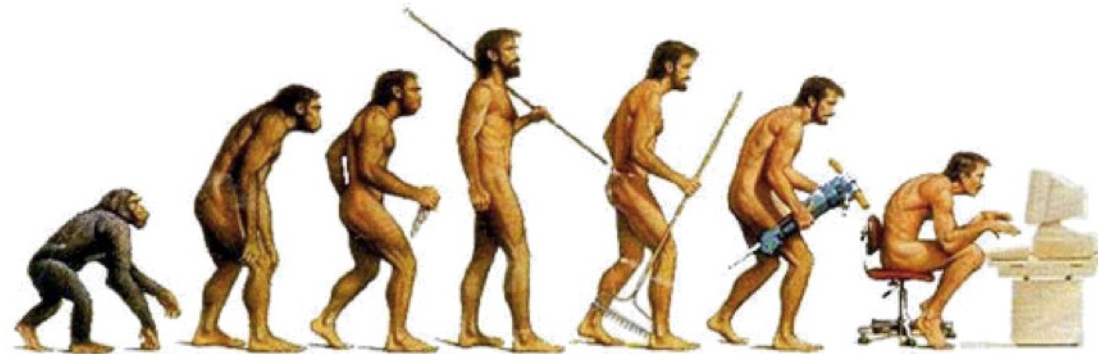

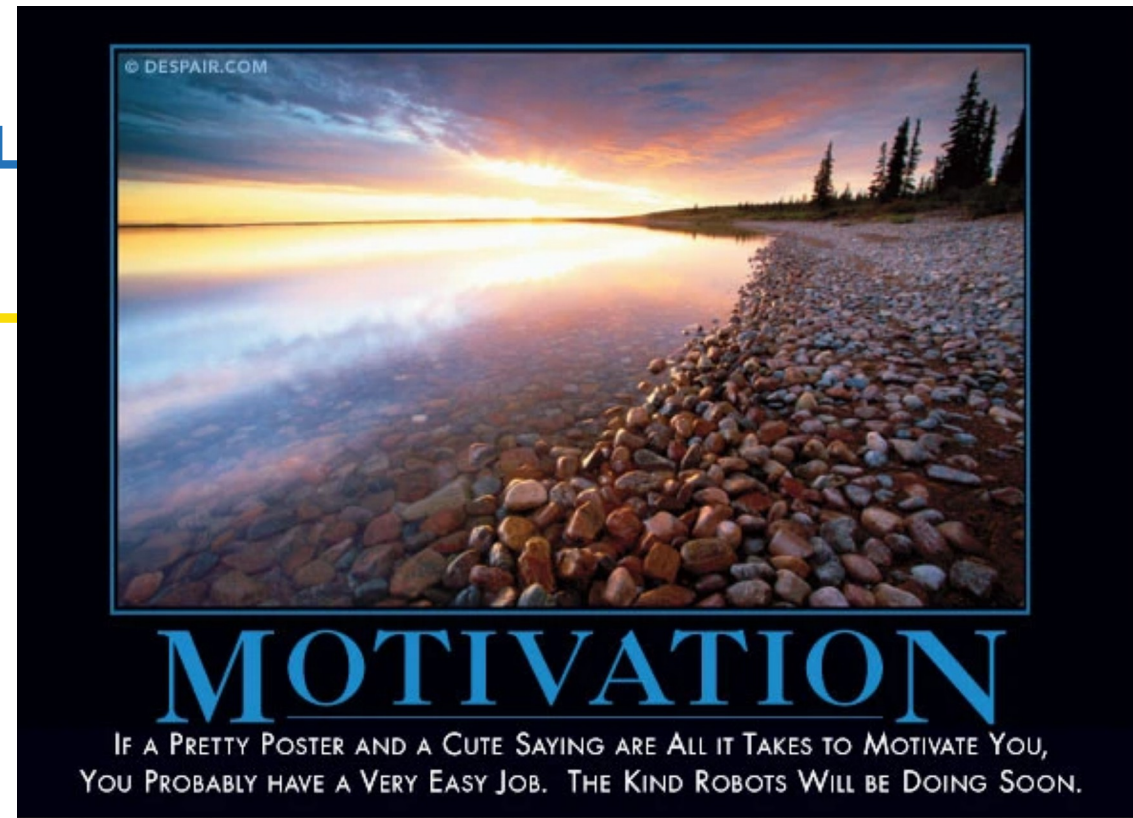

- + 4th participation to JIDAP
 - > What to do after a Phd

- + Since september 2015
 - > Associate professor at L3i

- + Associate professor's life
 - > It depends on you mainly, but globally nice (whatever other people tell you ;-)
 - > Classes are mandatory (this is what you are paid for...)
 - > Research is « the fun part »
 - > And also, writing projects proposal, participating to administrative stuff, supervising, ...

EVOLUTION OF RESEARCHER'S L

- + From phd student to full researcher
 - > Start by learning
 - > How to understand a problem
 - > How to structure ideas
 - > How to fund your ideas
 - > How to supervise people
 - > ...
- + Don't forget that your future work will never be like what you are doing today

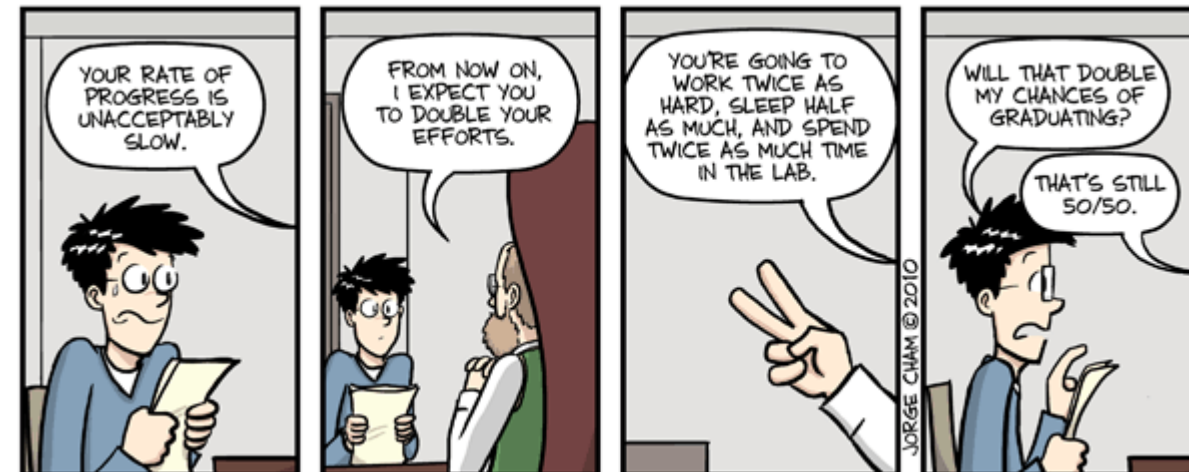

SOME ADVICES AND GENERAL THOUGHTS

- + Have fun during your Phd !!
 - > Never be the same again (old schmuck though ;-)
 - > Give some classes if you wish to become an Ass. Prof.

- + Always try to step back and look at a bigger scale
 - > You're a part of something bigger than you
 - > The whole is more than the sum of its parts

- + Getting a permanent position means
 - > Changing your daily work
 - > Need to explore new fields, new ideas
 - > Need to be open minded

JIDAP 2021

You Rock!!!

Congratulations !

The moment i finished this f***ing report
